HANDLING LARGER BOXES

The B5 W is a machine which has been constructed to service users with smaller amounts of waste, but who still need a machine to handle bulky materials.

The machine is characterized by a very wide filling opening of 39 inches, which is an advantage when handling larger cardboard boxes. The chamber is equipped with rows of efficient barbs, which keep the material back and ensure optimum filling.

1 Compact your waste and eject the finished bale. **2** Remove and store the bale until collection. **3** An efficient and silent ejecting system ensures easy handling of the compressed bale. **4** The strap rolls are easy to replace in front of the machine.

Technical specifications

Press force (lbs)	11,000
Power supply	Single phase
Motor (kW)	1.1
Noise level (dB)	65-68
Cycle time (sec)	33
Dimensions WxDxH (inch)	53 x 35 x 93
Weight (lbs)	1325
Filling opening WxH (inch)	39 x 21
Filling height (inch)	36
Chamber height (inch)	51
Stroke (inch)	30
Bale size WxDxH (inch)	39 x 28 x 31
Bale weight cardboard (lbs)	175-245
Bale weight plastic (lbs)	200-290

- **Large filling opening**
Advantage when handling larger boxes
- **Easy to replace strap rolls**
They are placed in front
- **Automatic ejection**
Two-hand operation ejects the bale
