DISTRIBUTOR

FOR LARGER DEMANDS

The X25 is equipped with cross cylinders, giving you stable compression and superior press force, together with a low overall height. Combined with a long stroke, a high bale weight can be achieved.

This baler is designed with easy servicing in mind, for example the positioning of the hydraulic unit mounted below the control panel on the side of the machine.

Technical specifications

| | |
|-----------------------------|--------------|
| Press force (lbs) | 55,200 |
| Power supply | 3-phase |
| Motor (kW) | 4.0 |
| Noise level (dB) | 59-60 |
| Cycle time (sec) | 23 |
| Dimensions WxDxH (inch) | 69 x 50 x 79 |
| Weight (lbs) | 3150 |
| Filling opening WxH (inch) | 43 x 21 |
| Filling height (inch) | 37 |
| Chamber height (inch) | 54 |
| Stroke (inch) | 37 |
| Bale size WxDxH (inch) | 47 x 31 x 31 |
| Bale weight cardboard (lbs) | 500-650 |
| Bale weight plastic (lbs) | 550-775 |

1 Compact your waste and eject the finished bale. **2** Remove and store the bale until collection. **3** The cross cylinders ensure stable compression and a low overall height. **4** The bale is ejected by a safe two-hand operation.

- **Noiseless**
Due to a unique hydraulic system
- **Safe and steady opening of door**
Operated by a strong threaded spindle
- **Easy installation**
Very low overall height
